

Azure AI Services Overview

Document Intelligence

Document Intelligence is a cloud-based service that uses machine learning to extract text, key-value pairs, and tables from documents.

Key Features

- Prebuilt models for common document types
- Custom model training
- High accuracy text extraction
- Supports PDF, images, and Office files

Use Cases

- Invoice processing
- Contract analysis
- Form data extraction
- Resume parsing

This is a test document for the AIShowcase API.
